

13th Annual Greenwood Car Show – June 2005

By Gail Ritchie

We had a lovely day to be in Seattle for the Greenwood Car show. We only had four cars on display along with our table, banner and new brochures, but we were busy much of the time talking to people about the Club and about their old Volvo memories.

We had many more visitors to our area this year than last which made us all feel good.

Gary Ramstad, Dick Libby, Robert Rosen and myself (the only female driver again!) attended and enjoyed the day that went by very fast for all of us with so many people stopping by to see our cars.

Again, we had a good representation of models with Dick's PV544, Gary's lovely 122S, Robert's really yellow 1800ES and my Champagne 1800S.

I enjoyed this event for my second year in a row and will be attending in the future.
